

# GRAND CANYON UNIVERSITY™

## 1. Register a new user

a) Take a screen shot of the SQL data you generate.

The screenshot shows a database management tool interface. On the left, a tree view displays the database structure, including schemas like 'com.shadsluiter.ordersapp' and 'ordersapp'. The 'users' table is selected. On the right, a SQL query is executed: `SELECT * FROM ordersapp.users;`. The result is displayed in a grid showing 13 rows of user data.

| id | login_name | password                                        | enabled | account_non_expired | credentials_n |
|----|------------|-------------------------------------------------|---------|---------------------|---------------|
| 1  | alice      | password123                                     | 1       | 1                   | 1             |
| 2  | bob        | Iwishtoberichandfamous!                         | 1       | 1                   | 1             |

## 2. Login to the app at POST /api/users/login, seen in Figure 35 and Figure 36.

The screenshot shows a web browser window with the URL 'localhost:8080'. The browser's address bar and tabs are visible. The page content includes a navigation bar with links: 'Home', 'Register', 'Logout', 'Orders', and 'Create Order'. A message at the top right indicates the user is 'Logged in as: hello1 ROLE\_ADMINROLE\_USER'. Below the navigation bar, a large 'Welcome' message is displayed.

## 3. Test the Get All Orders: GET /api/orders using Postman with authenticated requests

| ID | Date        | Customer ID | Notes                                             | Actions                                     |
|----|-------------|-------------|---------------------------------------------------|---------------------------------------------|
| 1  | 01-Jan-2024 | 1           | Customer requested a fast delivery.               | <a href="#">Edit</a> <a href="#">Delete</a> |
| 3  | 03-Jan-2024 | 3           | This is for a birthday. Special message included. | <a href="#">Edit</a> <a href="#">Delete</a> |
| 4  | 05-Jan-2024 | 4           | Specific delivery time for after 5 pm             | <a href="#">Edit</a> <a href="#">Delete</a> |
| 7  | 07-Jan-2024 | 2           | Customer requested an expedited shipping.         | <a href="#">Edit</a> <a href="#">Delete</a> |
| 12 | 12-Jan-2024 | 2           | Customer requested a return label.                | <a href="#">Edit</a> <a href="#">Delete</a> |
| 15 | 15-Jan-2024 | 5           | Customer requested a price match.                 | <a href="#">Edit</a> <a href="#">Delete</a> |
| 16 | 16-Jan-2024 | 1           | Customer wanted to track the shipment.            | <a href="#">Edit</a> <a href="#">Delete</a> |
| 18 | 18-Jan-2024 | 3           | Customer requested an extended warranty.          | <a href="#">Edit</a> <a href="#">Delete</a> |

Figure 1 The API service will not respond if Authorization is absent or the key is invalid.

#### 4. **Create Order:** POST /api/orders (requires Authorization header with JWT token)

|    |             |    |                                                    |                                             |
|----|-------------|----|----------------------------------------------------|---------------------------------------------|
| 15 | 15-Jan-2024 | 5  | Customer requested a price match.                  | <a href="#">Edit</a> <a href="#">Delete</a> |
| 16 | 16-Jan-2024 | 1  | Customer wanted to track the shipment.             | <a href="#">Edit</a> <a href="#">Delete</a> |
| 18 | 18-Jan-2024 | 3  | Customer requested an extended warranty.           | <a href="#">Edit</a> <a href="#">Delete</a> |
| 21 | 23-Nov-2025 | 24 | ordercreated 11/23/25 5:47PM showing functionality | <a href="#">Edit</a> <a href="#">Delete</a> |

#### 5. **Get Orders by Customer ID:** GET /api/orders/{customerid} (requires Authorization header with JWT token). An example is shown in Figure 43.

| ID | Date        | Customer ID | Notes                                  | Actions                                     |
|----|-------------|-------------|----------------------------------------|---------------------------------------------|
| 1  | 01-Jan-2024 | 1           | Customer requested a fast delivery.    | <a href="#">Edit</a> <a href="#">Delete</a> |
| 16 | 16-Jan-2024 | 1           | Customer wanted to track the shipment. | <a href="#">Edit</a> <a href="#">Delete</a> |

Figure 2 All orders for customer 5 are shown.

#### 6. **Update Order:** PUT /api/orders/{id} (requires Authorization header with JWT token), shown in Figure 44 and Figure 45.

|    |             |    |                                                                          |                                             |
|----|-------------|----|--------------------------------------------------------------------------|---------------------------------------------|
| 12 | 12-Jan-2024 | 2  | Customer requested a return label.                                       | <a href="#">Edit</a> <a href="#">Delete</a> |
| 15 | 15-Jan-2024 | 5  | Customer requested a price match.                                        | <a href="#">Edit</a> <a href="#">Delete</a> |
| 16 | 16-Jan-2024 | 1  | Customer wanted to track the shipment.                                   | <a href="#">Edit</a> <a href="#">Delete</a> |
| 18 | 18-Jan-2024 | 3  | Customer requested an extended warranty.                                 | <a href="#">Edit</a> <a href="#">Delete</a> |
| 21 | 23-Nov-2025 | 24 | ordercreated (now updated) 11/23/25 5:49PM showing functionality of edit | <a href="#">Edit</a> <a href="#">Delete</a> |

7. **Delete Order:** DELETE /api/orders/{id} (requires Authorization header with JWT token), shown in Figure 46.

|    |             |    |                                                                          |                                             |
|----|-------------|----|--------------------------------------------------------------------------|---------------------------------------------|
| 12 | 12-Jan-2024 | 2  | Customer requested a return label.                                       | <a href="#">Edit</a> <a href="#">Delete</a> |
| 15 | 15-Jan-2024 | 5  | Customer requested a price match.                                        | <a href="#">Edit</a> <a href="#">Delete</a> |
| 16 | 16-Jan-2024 | 1  | Customer wanted to track the shipment.                                   | <a href="#">Edit</a> <a href="#">Delete</a> |
| 21 | 23-Nov-2025 | 24 | ordercreated (now updated) 11/23/25 5:49PM showing functionality of edit | <a href="#">Edit</a> <a href="#">Delete</a> |

order id 18 deleted see ss above for before.
